

FIRST CHEMISTRY MEETING BETWEEN TOKYO METROPOLITAN UNIVERSITY (TMU) and UNIVERSITI KEBANGSAAN MALAYSIA.(UKM)

Date: August 5, 2014, 10:30-16:00

Place: Building 8, RM 304, Tokyo Metropolitan University (Hachioji, Tokyo 192-0397, Japan)

Program

10:30 Opening Remarks

10:35-10:55 Prof. Tohru Nishinaga (TMU)

Conductive Properties of Gold Nanoparticles Protected by Partially Bicyclo[2.2.2]octene-Annulated Oligothiophenes

10:55-11:15 Prof. Soichi Sato (TMU)

Synthesis and Structure of Organo-telluranyl Dications Having Biphenylene Ligands

11:15-11:35 Dr. Azwani Mat Lazim (UKM)

Synthesis and Characterisation of *Dioscorea Hispida* sp. Starch Based Hydrogel and their Disinfection Benefits

11:35-11:55 Dr. Siti Fairus M. Yusoff (UKM)

Study on the Complexation of Protonated 5,5,7,12,12,14-Hexamethyl-1,4,8,11-tetraazacyclotetradeca-7,14-dienium Salts

Lunch, Lab Tour, Free Discussion (Meeting Faculty Members)

14:00-14:20 Dr. Kazunori Hirabayashi (TMU)

Tin(IV) Chloride-Mediated [3+2] Cycloaddition Reactions of Allyl Chalcogenides

14:20-14:40 Dr. Siti Aishah Hasbullah (UKM)

Solvent Free Synthesis of Spiropyran Derivatives using Microwave Irradiation Method

14:50-15:20 Prof. Bohari M Yamin (UKM)

Looking Back at Ruthenium Cluster Compounds

15:20-15:50 Prof. Kotohiro Nomura (TMU)

Introduction of Research Project: Olefin Metathesis and Green Catalysts

16:00 Free Discussion, International Center
