29 Memoirs and Technical Repots

1. Ueda, T. and Kawamura, A. (October 1979)
    On the calculation of the optimum operation of a reservoir for water utilizations.
    Technology Report of Kyushu University, 52(5), 579-582 (in Japanese).

2. Ueda, T., Jinno, K., Kawamura, A. and Takayoshi, S. (December 1982)
    Detection of abrupt changes occurring in a rainfall sequence represented by a periodic function.
    Technology Report of Kyushu University, 55(6), 585-591 (in Japanese).

3. Kawamura, A. and Ueda, T. (June 1983)
    A study on various reservoir operating rules for drought period.
    Technology Reports of Kyushu University, 56(3), 163-169 (in Japanese with English abstract).

4. Medina, R.R., Jinno K., Ueda, T. and Kawamura, A. (March 1985)
    Study on the statistical and dynamic characteristics of rainfall in the Philippines.
    Memoirs of the Faculty of Engineering, *Kyushu University*, Vol.45, No.1, pp.1-23.

5. Kawamura, A., Jinno, K. and Ueda, T. (October 1985)
    On the characteristics of rainfall-runoff process in the drainage area of Egawa reservoir.
    Technology Reports of Kyushu University, 58(5), 699-704 (in Japanese with English abstract).

6. Jinno, K., Kawamura, A. and Ueda, T. (August 1986)
    On the dynamic properties and predictions of daily water deliveries of the purification stations in Fukuoka City.
    Technology Reports of Kyushu University, 59(4), 495-502 (in Japanese with English abstract).

7. Ueda, T., Jinno, K., Kawamura, A. and Doi, K. (October 1986)
    Prediction of pipe discharges, hydraulic pressures and water demands in water supply network using sensor information.
    Technology Reports of Kyushu University, 59(5), 677-684 (in Japanese with English abstract).

8. Kawamura, A., Ueda, T. and Jinno, K. (December 1986)
    On the characteristics and synthetic generation of ten-day precipitation sequence in Fukuoka Cit for low-flow management.
    Technology Reports of Kyushu University, 59(6), 779-786 (in Japanese with English abstract).

9. Medina, R.R., Jinno K., Ueda, T. and Kawamura, A. (December 1986)
    Characterization of rainfall fluctuation in the Philippines by the adaptive Kalman filter.
    Memoirs of the Faculty of Engineering, Kyushu University, Vol.46, No.4, pp.435-450.

10. Kawamura, A., Jinno, K., Ueda, T. and Yoshinaga H. (January 1989)
    On the on-line prediction of the concentration distribution of one-dimensional constant   coefficient stochastic convective-dispersion equation based on Kalman filter.
    Technology Reports of Kyushu University, 62(1), 17-24 (in Japanese with English abstract).

11. Kawamura, A., Jinno, K., Ueda, T. and Kotani, S. (March 1989)
    On-line prediction of node water demands in water supply network using autoregressive model.
    Technology Reports of Kyushu University, 62(2), 83-90 (in Japanese with English abstract)

12. Medina, R.R., Jinno K., Ueda, T., Kawamura, A. and Nakayama, H. (March 1989)
    A comparison of several combination of nonlinear filters and storage function models for real-time runoff forecasting.
    Memoirs of the Faculty of Engineering, Kyushu University, Vol.49, No.1, pp.29-44.

13. Tajiri, K., Jinno, K., Kawamura, A. and Iida, H. (March 1992)
    Development of a decision-making system for river diversion and reservoir management considering safety of water utility.
    Technology Reports of Kyushu University, 65(2), 89-96 (in Japanese with English abstract).

14. Kawamura, A., Matsumoto, M., Jinno, K. and Xu, S. (September 1994)
    Estimation and prediction for dynamics of chaotic time series (I). On the dependence of Lorenz equations on the initial value and parameters and its prediction by nonlinear least square method.
    Technology Reports of Kyushu University, 67(5), 513-521 (in Japanese with English abstract).

15. Kawamura, A., Matsumoto, M., Jinno, K. and Xu, S. (September 1994)
    Estimation and prediction for dynamics of chaotic time series (II). On the estimation and prediction for dynamics of Lorenz equation by extended Kalman filter.
    Technology Reports of Kyushu University, 67(5), 523-531 (in Japanese with English abstract).

16. Tajiri, K., Jinno, K., Kawamura, A. and Sueyoshi, S. (September 1994)
    On the possibility of water supply to urban and surrounding area considering their relationship and the safety criteria.
    Technology Reports of Kyushu University, 67(5), 533-538 (in Japanese with English abstract).

17. Tajiri, K., Jinno, K., Kawamura, A. and Sueyoshi, S. (November 1994)
    Development of an expert system for estimating the extracted water quantity in a city with multi-reservoirs.
    Technology Reports of Kyushu University, 67(6), 667-672 (in Japanese with English abstract).

18. Jinno, K., Xu, S., Berndtsson, R., Kawamura, A. and Matsumoto, M. (March 1995)
    Reconstruction of chaotic system equations and prediction of monthly sunspot time series. Prediction of sunspots using reconstructed chaotic system equations.
    Memoirs of the Faculty of Engineering, Kyushu University, Vol.55, No.1, pp.1-14.

19. Jinno, K., Kawamura, A., Wakimizu, K., Nishiyama, K. and Furukawa, T. (August 1996)
    Characteristics of radar parameters and real-time prediction of ground rainfall.
    Memoirs of River Information Research, 4, 19-26 (in Japanese with English abstract).

20. Merabtene, T., Jinno, K. and Kawamura, A. (September 1997)
    Interactive user interface for rainfall-runoff analysis by tank model.
    Memoirs of the Faculty of Engineering, Kyushu University, Vol.57, No.3, pp.107-120.

21. Kawamura, A., Jinno, K and Merabtene, T. (November 1998)
    Study on decision support system for management of water supply systems using risk analysis.
    1998 Annual Report of Water Resources Seminar, pp.32-41.

22. Merabtene, T., Jinno, K., Kawamura, A. and Olsson, J. (December 1998)
    Drought management of water supply systems: a decision support system approach.
    Memoirs of the Faculty of Engineering, Kyushu University, Vol.58, No.4, pp.183-197.

23. Kawamura, A., Merabtene, T. and Jinno, K (May 2000)
    Water resources management support system in Fukuoka City.
    1999 Annual Report of Study Group on Practical Hydrological System, pp.211-221 (in Japanese).

24. Ishikawa, I., Olsson J., Jinno, K., Kawamura, A., Nishiyama, K. and Berndtsson R.(June 2002)
    Rainfall estimation in the Chikugo river basin by atmoshperic downscaling using artificial neural networks.
    Memoirs of the Faculty of Engineering, Kyushu University, Vol.62, No.2, pp.85-95.

25. Jin, Y.H., Kawamura, A., Jinno, K. and Iseri, Y. (March 2004)
    Dynamical behavior of multivariate time series for SOI, precipitation/temperature in Fukuoka and its prediction by artificial neural networks.
    Memoirs of the Faculty of Engineering, Kyushu University, Vol.64, No.1, pp.45-62.

26. Awad, H., Kawamura, A., Jinno, K. and Kuno, Y. (March 2004)
    Analysis of motor valve operations in Fukuoka City water supply network using self-organizing map.
    Memoirs of the Faculty of Engineering, Kyushu University, Vol.64, No.1, pp.63-77.

27. Awad, H., Kawamura, A. and Jinno, K. (January 2005)
    Applications of artificial neural networks for optimal pressure regulation in supervisory water distribution networks.
    Memoirs of the Faculty of Engineering, Kyushu University, Vol.65, No.1, pp.29-51.

28. Nakagawa, K. and Kawamura, A. (September 2019)
    On the use of self-organizing maps to classify groundwater chemistry.
    Journal of Hydrological System, ARSIT, Vol.114, pp.25-28 (in Japanese).

29. Ishihara, S. and Kawamura, A. (January 2020)
    Characteristics of groundwater levels in Tokyo caused by Tohoku-Pacific Ocean Earthquake.
    Journal of Hydrological System, ARSIT, Vol.115, pp.33-36 (in Japanese).
